DEPARTMENT OF CIVIL ENGG

- › Civil Engineering department incepted in 2010. Since its establishment has grown exponentially and today offering ME and PhD programs affiliated to GTU and Marwadi University.
- › Civil Engineering Department is the one of the active departments of MEFGI. Dept has excellent laboratories and offering research and consultancy services.
- › The Department has ACI- India student chapter which is a unique chapter across the country. Department is also member of Hydrological Data Usage Group of Govt of Gujarat.

OBJECTIVES OF THE PROGRAMME

- › First time it has happened that two distinct disciplines advancement is clubbed in one program. We are glad to bring the second STTP in the same blended manner for the year 2016 (earlier it was in 2014).
- › Transportation engineering applies scientific and technical knowledge to provide economical and efficient transportation service that meets societal needs while maintaining compatibility with environmental, energy and safety goals.

Geo technical engineering is concerned with investigation of subsurface conditions and materials; assessing the risks posed by site conditions; designing of earthworks and structure foundations for the construction occurring on the surface or within the ground.
- › The goal of this STTP is to provide the participants with an in depth understanding on recent research trends in both area of Civil Engineering.

PROGRAM DETAILS

- › Eminent speakers from institute of repute and industry will share their expertise in the following themes
 - › Urban Transportation Planning
 - › Traffic Flow Analysis & Control
 - › Pavement Evaluation & Management
 - › Pavement Materials & Design
 - › Ground Improvement Techniques
 - › Geotechnical Investigation and Testing
 - › Soil Dynamics and Earthquake Engineering Reinforced Earth and Geosynthetic
